To conserve forever the lands
and waters of the Finger Lakes
region, ensuring scenic vistas,
local foods, clean water, and
wild places for everyone.

The Finger Lakes Land Trust (FLLT) is a nonprofit conservation organization working across 12 counties in Central New York. Since 1989, we have worked cooperatively with landowners and partners to protect some of the most treasured natural areas and open spaces in these vital watersheds. FLLT manages dozens of conservation areas that are free and open to the public for quiet recreation year-round. We also hold easements on protected lands that remain in private ownership. FLLT is supported by members, and you can help us do more!

**LINDSAY-
PARSONS
BIODIVERSITY
PRESERVE**

WEST DANBY, NY

MAP & GUIDE

**CONSERVED FOREVER
OPEN TO ALL**

FLLT.ORG/LINDSAY

 **Acreage:** 537 acres

 **County:** Tompkins

 **Trails:** 3.8 miles

The Lindsay-Parsons Biodiversity Preserve consists of 537 acres of lakes, forests, meadows, gorges, streams and wetlands.

NATURAL HISTORY

The Lindsay-Parsons Biodiversity Preserve spans the mile-wide floor of the Cayuga Inlet valley and stretches up a glacially-steepened hillside where it borders Danby State Forest to the east. Diverse habitats found within the preserve are home to an equally diverse variety of flora and fauna, including some rare species. Nearly four miles of trails lead visitors through forests and fields making the preserve an exceptional place for bird watching and quiet contemplation.

HISTORY

Lindsay-Parsons was established in 1996 as the world's first temperate-zone preserve for research in biodiversity and chemical ecology. Since then, the Finger Lakes Land Trust has continued to grow the preserve which now consists of thirteen separately acquired parcels.

ACTIVITIES

Hiking & Running
Cross-Country Skiing
Snowshoeing
Birdwatching

DOGS

Keep your dog under control at all times

HOURS

Open dawn to dusk all year

POLICIES
