To conserve forever the lands
and waters of the Finger Lakes
region, ensuring scenic vistas,
local foods, clean waters, and
wild places for everyone.

The Finger Lakes Land Trust is a nonprofit conservation organization working across a 12-county region in Central New York. We have worked cooperatively with landowners and partners to permanently protect over 25,000 acres of treasured natural areas and scenic farmlands. The Land Trust owns and manages more than 35 conservation areas that are open to the public for quiet recreation. We hold over 150 easements on protected lands that remain in private ownership. FLLT is supported by members, and you can help us save more land.

NATURAL HISTORY

Within a large area of conserved lands including Potato Hill and Robinson Hollow state forests lies this stunning mix of forest and meadow. Bobolinks and Meadowlarks grace the grassland habitat here, and black bear have been observed roaming the hills. Remnants of old logging roads flow through the large stands of northern hardwood forest.

HISTORY

These acres were donated by Dr. Ann Boyer, a physician who also donated a conservation easement on an adjacent 15-acre parcel where she maintains a residence. The preserve name comes from fond memories of Dr. Boyer's childhood, when her grandmother moved the family to a country place that they called Summerland Farm. The cherished memory lives forever at this permanently protected conservation area.
